The 9th Jerusalem Symposium

An International Symposium on Metal-Ligand Interactions in Organic and Biochemistry, sponsored jointly by the Hebrew University, Jerusalem, and the INstitut de Biologie Physico-Chimique (Fondation Edmond de Rothschild), Paris, will be held, under the auspices of the Israel Academy of Sciences and Humanities, in Jerusalem, Israel from March 29th to April 2nd, 1976.

The aim of this meeting will be to examine the current status of our knowledge concerning the theoretical and experimental aspects of the problem. Attention will be paid to the possibilities of quantum-mechanical computations in this field. The collaboration of both theoreticians and experimentalists is therefore welcome at this symposium.

Correspondence and applications should be sent to Prof. B. Pullman, Fondation Edmond de Rothschild, 13, rue P. et M. Curie, 75005, Paris, France.

Drug Receptor and Drug Enzyme Interactions

An International Meeting on Drug Receptor and Drug Enzyme Interactions. A Basic Approach will be organized at Namur (Belgium) by the Pharmaceutical Division of the Belgian Chemical Society and the Facultés Universitaires de Namur, on May 19-21, 1976.

Twelve plenary lectures devoted to acquired knowledge and prospects in structure-activity correlations will be given by leading personalities in the field.

Organizing Committee: Profs. P. Dumont, F. Durant, and A. Krief

Dr. Binon

Secretary's Office:

F. Durant and A. Krief
