

of soil-borne pathogens including nematodes, fungi and bacteria, 3) soil physical properties and soil fertility and 4) crop physiology. Each session will start with a survey paper of an invited speaker followed by voluntary papers from participants.

Individuals wishing to contribute papers need to send the title to IAC-Section OCC, P.O. Box 88, 6700 AB Wageningen, The Netherlands.

An information circular with preliminary program registration and accommodation information will be mailed in March 1988. To assure receiving this circular, send your name and address or the questionnaire.

POTATO QUALITY GROWTH SYMPOSIUM TO BE HELD AT ANNUAL MEETING

A Symposium on "Potato Quality, Industry Needs for Growth" will be held at the 72nd Annual Meeting of the Potato Association of America on July 24-28, 1988, at Fort Collins, Colorado.

We are soliciting papers which deal with the quality problems that industry (both processed and fresh) face in their operations. Papers may be on problems or solutions to problems in the area of potato quality.

Questions concerning the Symposium or related contributed papers may be directed to Lamont Anderson (P.O. Box 459, Grand Forks, ND 58201 Telephone: 701-775-3154) or Ed Lulai (P.O. Box 113, East Grand Forks, MN 56721 Telephone: 218-773-2473). Please submit abstracts in the category "Potato Quality, Industry Needs for Growth" to The PAA secretary upon the call for abstracts.

We extend a special invitation to the members of the Potato Industry to participate in the Symposium.

MEETING SECTION PHYSIOLOGY OF EAPR

The Section Physiology will meet at Kiryat Anavim in Israel from May 29 to June 4, 1988. Dr. D. Levy from the Volcani Center is the local organizer. Participants are invited to report on progress in their work. High temperatures and low rainfall influence potato growing in Israel. Therefore we particularly welcome (review) papers on physiological and genetic aspects of responses to drought and temperature. Field excursions are included in the program. A circular with additional information has been distributed among members of the Section. Non-members who may consider participating or presenting a paper are requested to contact the secretary of the section.
