

ANNOUNCEMENTS

● CONTENTS OF OTHER CANCER JOURNALS ●

CANCER RESEARCH — VOL. 37, No. 4, APRIL 1977

Prolactin and murine mammary tumorigenesis: a review, by Clifford W. Welsch and Hiroshi Nagasawa.

Induction of resistance to L1210 leukemia in BALB/c × DBA/2Cr F₁ mice, with L1210 cells treated with glutaraldehyde and concanavalin A, by Tateshi Kataoka, Fujiko Oh-hashii, Shigeru Tsukagoshi and Yoshio Sakurai.

Similarity of the mechanism of chemical carcinogen-initiated teratogenesis and carcinogenesis in mice, by Taisei Nomura. Suppression of antibody-mediated and cell-mediated murine immunity by the carcinogen *N*-[4-(5-nitro-2-furyl)-2-thiazolyl]acetamide, by Don B. Headley, Samuel M. Cohen and George T. Bryan.

Phase 2 study with Baker's antifol in solid tumors, by Victorio Rodriguez, Stephen P. Richman, Robert S. Benjamin, Michael A. Burgess, William K. Murphy, Manuel Valdivieso, Robert L. Banner, Jordan U. Gutterman, Gerald P. Bodey and Emil J. Freireich.

Epidermal hyperplasia after topical application of benzo(*a*)-pyrene, benzo(*a*)pyrene diol epoxides, and other metabolites, by Edward Bresnick, Thomas F. McDonald, Haruhiko Yagi, Donald M. Jerina, Wayne Levin, Alexander W. Wood and Allan H. Conney.

Cooperation of immune lymphoid and reticuloendothelial cells during *listeria monocytogenes*-mediated tumor immunity by Said Youdim.

The chromosome analysis and susceptibility to transformation by simian virus 40 of fibroblasts from ataxia-telangiectasia, by T. Webb, D. G. Harnden and Margaret Harding.

Characterization of a new continuous cell line derived from a human retinoblastoma, by Rosemary C. McFall, Theodore W. Sery and Maracia Makadon.

Metabolism of benzo(*a*)pyrene by Guinea pig pancreatic microsomes, by Zafar M. Iqbal, Marie E. Varnes, A. Yoshida and S. S. Epstein.

Comparative *in vitro* metabolism of aflatoxinol by liver preparations from animals and humans, by Abdulazim S. Salhab and Gordon S. Edwards.

Mechanism of uptake of nitrosoureas by L5178Y lymphoblasts *in vitro*, by Asher Begleiter, Hing-Yat Peter Lam and Gerald J. Goldenberg.

Uridine kinase activities in normal and neoplastic lymphoid cells, by Neil Greenberg, Dorothy E. Schumm, Paul E. Hurtubise and Thomas E. Webb.

Changes in peroxisomes in preneoplastic liver of rats induced by 3'-methyl-4-dimethylaminoazobenzene, by Masayuki Itabashi, Yohichi Mochizuki and Hideyuki Tsukada.

Microsome-mediated mutagenesis in V79 Chinese hamster cells by various nitrosamines, by Toshio Kuroki, Cecile Drevon and Ruggero Montesano.

Clearance of phenylalanine ammonia-lyase from normal and tumor-bearing mice, by Rong-sen Shen, Richard R. Fritz and Creed W. Abell.

Cell proliferation kinetics and drug sensitivity of exponential and stationary populations of cultured L1210 cells, by Bijoy K. Bhuyan, Terry J. Fraser and Kathy J. Day.

A time factor in the success or failure of immune rejection of transplanted tumors, by Jan Vaage.

The inhibition of thymidine kinase in glial tumor cells by an amino sugar, D-glucosamine, by Susan J. Friedman, Thomas Kimball, Carol D. Trotter and Philip J. Skehan.

Characterization of rat lung epoxide (styrene oxide) hydrolase with a modified radioactive assay of improved sensitivity, by Janeric Seidegård, Joseph W. DePierre, Maria S. Moron, Karin A. M. Johannesen and Lars Ernster.

Metabolism of estrogens in hepatomas of different growth rates, by Yusuf J. Abul-Hajj and Harold P. Morris.

Adenosine triphosphatases as histochemical markers for the cell of origin in experimental mammary carcinoma, by Jose Russo, Peter A. Wells and Irma H. A. Russo.

Induction of urogenital anomalies and some tumors in the progeny of mice receiving diethylstilbestrol during pregnancy, by Taisei Nomura and Tohru Kanzaki.

Synchronization of hepatocellular DNA synthesis in regenerating rat liver by continuous infusion of hydroxyurea, by H. M. Rabes, G. Iseler, S. Czichos and H. V. Tuzcek.

Light-induced mutagenicity of neutral red (3-amino-7-dimethylamino-2-methylphenazine hydrochloride), by Bezalel Gutter, William T. Speck and Herbert S. Rosenkrantz.

Genetic control of antinuclear antibodies in mice infected with Rauscher leukemia virus, by Bruno Varet, Arlette Cannat and Sylvie Gisselbrecht.

Relationship of surface immunoglobulin-bearing cells, plasma cells, and tumor development in anaplastic carcinoma-bearing A/J mice, by David S. Chi and Nick S. Harris.

Production of formaldehyde from *N*⁵-methyltetrahydrofolate by normal and leukemic leukocytes, by Janet Thorndike and William S. Beck.

γ -L-glutamyl-4-hydroxybenzene, an inducer of cryptobiosis in *agaricus bisporus* and a source of specific metabolic inhibitors for melanogenic cells, by F. Stephen Vogel, Liselotte A. K. Kemper, Peter W. Jeffs, Malcolm W. Cass and Doyle G. Graham.

Corynebacterium parvum and cyclophosphamide as combination treatment for a murine mammary adenocarcinoma, by Dallas M. Purnell, Gerald L. Bartlett, John W. Kreider and Timothy G. Biro.

The inhibition of thymidine metabolism in tumor cells treated with D-glucosamine, by Susan J. Friedman, Carol D. Trotter, Thomas Kimball and Philip J. Skehan.

Changes in leucine aminotransferase isozymes by viral transformation and its correlation with the isozyme changes occurring during differentiation, by Stephen L. Roth, Robert Delotto and Akira Kaji.

Lymphoid subpopulation changes in regional lymph nodes in squamous head and neck cancer, by Andrew Saxon and John Portis.

Preservation of *in vitro* biological functions in regional lymph node lymphocytes in squamous head and neck cancer, by Andrew Saxon and Joe Portaro.

Demonstration of different glycosylated antigens in C-type virus-transformed and infected rat cells by antiserum to murine leukemia virus, by Manuel Rieber, Josefina Bacalao, Mary Rieber and Guillermina Alonso.

Continued presence of similar transformation-associated antigens related to murine oncornavirus proteins in transformed cells, morphological revertants, and cells restricted in the expression of transformation, by Manuel Rieber, Josefina Bacalao and Mary Rieber.

Aryl hydrocarbon hydroxylase activity in pulmonary macrophages and lymphocytes from lung cancer and noncancer patients, by Theodore L. McLemore, R. Russell Martin, David L. Busbee, Rodney C. Richie, Robert R. Springer, Kenneth L. Toppell and Elroy T. Cantrell.

Quantitation of fibrinolytic activity of Syrian hamster fibroblast using ³H-labeled fibrinogen prepared by reductive alkylation, by J. Carl Barrett, Brian D. Crawford and Paul O. P. Ts'o.

Casein and α -lactalbumin messenger RNA in experimental breast cancer, by Nicholas J. Nardacci and William L. McGuire.

Effects of methanol extraction residue of *Bacillus Calmette-Guérin* in humans, by Marjorie Perloff, James F. Holland, George J. Lumb and J. George Bekesi.

Radioimmune assay and characteristics of antibodies to macromycin (NSC 170105), by Jeffrey L. Winkelhake and Francis L. A. Buckmire.

Effects of cyclophosphamide and of busulfan on spleen colony-forming units and on hematopoietic stroma, by Walter Fried, Alexander Kedo, and Judith Barone.

Metabolic activation of benzo(a)pyrene and binding to DNA in cultured human bronchus, by Shen K. Yang, Harry V. Gelboin, Benjamin F. Trump, Herman Autrup and Curtis C. Harris.

Predominant role of prolactin in stimulating the growth of 7,12-dimethylbenzo(a)anthracene-induced rat mammary tumor, by Andrea Manni, Jaime E. Trujillo and Olof H. Pearson.

Immunosuppressive activity of ascitic fluid from patients with cancer metastatic to the peritoneum, by Alison M. Badger, Sidney R. Cooperband, Vincent J. Merluzzi and Arthur H. Glasgow.

Nucleic acid content and nuclear chromatin structure of human bladder cell culture lines as studied by flow cytofluorometry, by Myron R. Melamed, Zbigniew Darzynkiewicz, Frank Traganos and Thomas K. Sharpless.

Chemotherapy of experimental meningeal carcinomatosis, by Yukitaka Ushio, Jerome B. Posner and William R. Shapiro.

Prevention of renal failure in rats receiving *cis*-diamminedichloroplatinum(II) by administration of furosemide, by J. M. Ward, M. E. Grabin, E. Berlin and D. M. Young.

Cytotoxicity of 5,6-dihydroxytryptamine in dimethylhydrazine-induced carcinomas of rat colon, by Peter J. M. Tutton and David H. Barkla.

CANCER — VOL. 39, No. 4 APRIL 1977

Improvement of *cis*-dichlorodiammineplatinum (NSC 119875): therapeutic index in an animal model, by Esteban Cvitkovic, Joseph Spaulding, Victor Bethune, James Martin and Willet F. Whitmore.

The renal pathology in clinical trials of *cis*-platinum (II) diamminedichloride, by Juan C. Gonzalez-Vitale, Daniel M. Hayes, Esteban Cvitkovic and Stephen S. Sternberg.

High dose *cis*-platinum diammine dichloride: amelioration of renal toxicity by mannitol diuresis, by Daniel M. Hayes, Esteban Cvitkovic, Robert B. Golbey, Ellen Scheiner, Lawrence Helson and Irwin H. Krakoff.

Combination chemotherapy of Mopp-resistant Hodgkin's disease with adriamycin, bleomycin, dacarbazine and vinblastine (ABDV), by Delvyn C. Case, Jr., Charles W. Young and Burton J. Lee, III.

Randomized clinical trial of cystosine arabinoside and 6-thioguanine in remission induction and consolidation of adult nonlymphocytic acute leukemia, by Jerry P. Lewis, James W. Linman, G. June Marshall, Thomas F. Pajak and Joseph R. Bateman.

Adriamycin cardiomyopathy—risk factors, by Robert A. Minow, Robert S. Benjamin, Elisa T. Lee and Jeffrey A. Gottlieb.

Cyclophosphamide-induced ovarian failure and its therapeutic significance in patients with breast cancer, by Hiroki Koyama, Tomio Wada, Yukio Nishizawa, Takeshi Iwanaga, Yukitoshi Aoki, Toshio Terasawa, Goro Kosaki, Toshihide Yamamoto and Akira Wada.

Hypocalcemia with hypoparathyroidism and renal tubular dysfunction associated with aminoglycoside therapy, by M. J. Keating, M. R. Sethi, G. P. Bodey and N. A. Samaan.

Adjuvant chemotherapy in lung cancer: review and prospects, by Sewa S. Legha, Franco M. Muggia and Stephen K. Carter.

Intrahepatic arterial infusion of combination of mitomycin-C and 5-fluorouracil in treatment of primary and metastatic liver carcinoma, by N. C. Misra, M. S. D. Jaiswal, R. V. Singh and B. Das.

Bleomycin serum pharmacokinetics as determined by a radioimmunoassay and a microbiologic assay in a patient with compromised renal function, by Stanley T. Croke, Friedrich Luft, Alan Broughton, James Strong, Kay Casson and Lawrence Einhorn.

Total body irradiation with 8 MeV X-rays in generalized malignant disease, by John V. Huys, Maria J. Simons, Leo M. DeWulf and Karel H. Schelstraete.

Radiotherapy results for nodular sclerosing Hodgkin's disease after clinical staging, by Ralph E. Johnson, Harvey Zimmer, Costan W. Berard, Jean Herdt and Harmar D. Brereton.

Results of a randomized clinical trial of preoperative irradiation *versus* postoperative in treatment of tumors of the hypopharynx, by C. Vandenbrouck, H. Sancho, R. Le Fur, J. M. Richard and Y. Cachin.

Tumor specific transplantation antigens in spontaneously transformed hamster cell lines, by A. Yaniv, T. Gotlieb-Stematsky and E. Eylan.

Thymoma immunological and ultrastructural characterization, by Miguel A. Pedraza.

Yolk sac carcinoma (endodermal sinus tumor): ultrastructure and histogenesis of gonadal and extragonadal tumors in comparison with normal human yolk sac, by Francisco Nogales-Fernandez, Steven G. Silverberg, Paul A. Bloustein, Antonio Martinez-Hernandez and G. Barry Pierce.

Ultrastructure of myeloma cells in a case with crystalloglobulinemia, by Albert E. Kalderon, Hendrick A. Bogaars, Israel Diamond, Francis J. Cummings and Paul Calabresi.

The influence of stress and stress hormones on the transplantability of a non-immunogenic murine tumor, by L. J. Peters and Kazel Kelly.

Studies of T, B, and null lymphocytes during the course of acute lymphocytic leukemia, by Hie-Won L. Hann, W. Thomas London and Audrey E. Evans.

Marker chromosome 14q+ in non-endemic Burkitt's lymphoma, by Preben Philip, Mogens Krogh Jensen and Gorm Pallesen.

I. The proliferative patterns of human breast cancer cells *in vivo*, by Joseph Post, Robert J. Sklarew and Joseph Hoffman.

Malignant (fibrous) histiocytoma of bone—fact or fancy? by David C. Dahlin, Krishnan K. Unni and Takeo Matsuno.

Correlative study of the morphology and C₁₉-steroid metabolism of benign and cancerous human prostatic tissue, by Robert F. Morfin, Irwin Leav, Jean-François Charles, Larry F. Cavazos, Peter Ofner and Herve H. Floch.

Melanotic neuroectodermal tumor of infancy: its histological similarities to fetal pineal gland, by Elizabeth C. Dooling, Je G. Ghi and Floyd H. Gilles.

Granulocytic sarcoma of the brain, by Muthuswamy Krishnamurthy, Noel Nusbacher, Alberto Elguizabal and Barbara R. Seligman.

Malignant granular cell tumor of the radial nerve: an autopsy observation with electron microscopic and tissue culture studies, by Masamichi Usui, Seiichi Ishii, Shinya Yamawaki, Tetsuto Sasaki, Akio Minami and Kazuo Hizawa.

Angiosarcoma of venous origin arising in radial nerve, by Alan S. Bricklin and Harold W. Rushton.

- Plasma prostaglandins in hypercalcemic patients with neoplastic disease, by L. M. Demers, J. C. Allegra, H. A. Harvey, A. Lipton, J. R. Luderer, R. Mortel and D. E. Brenner.
- Uterine leiomyoblastoma: ultrastructural and cytological studies, by Vivien Chang, Masamichi Aikawa and Robert Druet.
- Rarity of cancer of the cervix in the Malaysian orang asli despite the presence of known risk factors, by E. Sumithran.
- Microfollicular thyroid carcinoma with amyloid rich stroma, resembling the medullary carcinoma of the thyroid (MCT), by Lubomir J. Valenta, Marc Michael-Bechet, Joan C. Mattson and Frederick R. Singer.
- Malignant lymphomas of the thyroid: a clinical pathologic study of 35 patients including ultrastructural observations, by Jerome S. Burke, James J. Butler and Lillian M. Fuller.
- Prognostic significance of pretreatment proliferative activity in adult acute leukemia, by Jacqueline S. Hart, Stephen L. George, Emil Frei III, Gerald P. Bodey, Roberta C. Nickerson and Emil J. Freireich.
- Leukocytic fibrinolysis in myelomonocytic leukemia, by Lilia Talarico and Lewis R. Weintraub.
- Peripheral ameloblastoma: a study of 21 cases, including 5 reported as basal cell carcinoma of the gingiva, by David G. Gardner.
- The morphology of human papillomas of the upper respiratory tract, by J. S. Incze, P. S. Lui, M. S. Strong, C. W. Vaughan and M. Pais Clemente.
- The changing histopathology of lung cancer: a review of 1682 cases, by Ronald G. Vincent, John W. Pickren, Warren W. Lane, Irwin Bross, Hiroshi Takita, Loren Houten, Alberto C. Gutierrez and Thomas Rzepka.
- Amylase in the lung, by Makoto Otsuki, Hisai Yuu, Mitsuo Maeda, Susumo Saeki, Tomio Yamazaki and Shigeaki Baba.
- Primary leiomyosarcoma of bone, by J. Overgaard, P. Frederiksen, O. Helming and O. Myhre Jensen.
- Myxoid variant of malignant fibrous histiocytoma, by Sharon Whelan Weiss and F. M. Enzinger.
- Squamous cell carcinoma of the buccal mucosa associated with chronic oral polyvinyl chloride exposure: report of a case, by Charlotte L. Casterline, Peter F. Casterline and Darrell A. Jaques.
- Intraductal papillary tumors of the breast: a study of 78 cases, by Darryl Carter.
- Ectopic production of human placental lactogen by human breast tumors, by Nandini A. Sheth, Jayant N. Suraiya, Anil R. Sheth, Kamal J. Ranadive and D. J. Jussawalla.
- Posthypophysectomy taste abnormalities: its relationship to remote effects of cancer, by Dov Gorshein.
- The relationship of fever, granulocytopenia and antimicrobial therapy to bacteremia in cancer patients, by Fred A. Gill, R. Robinson, James D. MacLowry and Arthur S. Levine.
- Early deaths in acute myelogenous leukaemia, by I. E. Smith, R. Powles, H. MacD. Clink, B. Jameson, H. E. M. Kay and T. J. McElwain.
- Factors in the prognosis of gastric lymphoma, by Fong E. Lim, Arnold S. Hartman, Eric G. C. Tan, Blake Cady and William A. Meissner.
- Primary adenocarcinoma of the duodenum, by Ian A. Spira, Ali Ghazi and William I. Wolff.
- Hypophysectomy in the treatment of disseminated prostate carcinoma, by Gerald D. Silverberg.
- Tricuspid stenosis secondary to metastatic melanoma, by James H. Thomas, Dimitrios G. Panoussopoulos, William R. Jewell and George E. Pierce.
- Laser surgery of a digital angiosarcoma: report of a case and six-year follow-up study, by Leon Goldman, Zdenek Naprstek and John Johnson.
- Small cell carcinoma of the male breast: report of a case, by Mariano G. Yogore III and Sudarshan Sahgal.
- Stomach carcinoma among Hawaiians and Caucasians in Hawaii, by Z. Wronkowski, G. Stemmermann and W. Rellahan.
- A comparison of Hodgkin's disease in Alameda county, California and Connecticut: histologic subtype and age distribution, by Debra T. Silverman, Pelayo Correa, Gregory T. O'Connor, Max H. Myers, Lillian M. Axtell and Kay U. Bragg.

BRITISH JOURNAL OF CANCER — VOL. 35, No. 4, APRIL 1977

- Comparison of the immunogenic capacity of tumor cells modified with various chemical reagents, by H. J. Staab and E. A. Anderer.
- Properties of a new cell line from a human chondrosarcoma, by J. C. H. de Man, M. Persant Snoep, J. W. Huiskens vd Meij, S. O. Warnaar and A. Schaberg.
- Further studies of the relationship between lymphatic dissemination and lymphnodal metastasis using non-immunogenic murine tumours, by H. B. Hewitt and E. R. Blake.
- The effects of *corynebacterium parvum* on the growth and induction of intracerebral tumours in mice, by D. E. Osborn, T. E. Sadler and J. E. Castro.
- Cold lymphocytotoxic antibodies in nasopharyngeal carcinoma, by J. P. Lamelin, J. P. Revillard, J. M. Chalopin, J. H. C. Ho, T. Souissi and G. Schwaab.
- The development of urethane induced pulmonary adenomata following plutonium dioxide inhalation, by J. Brightwell and A. G. Heppleston.
- Potassium dichromate effects on DNA synthesis in hamster fibroblasts, by A. G. Levis and M. Buttignol.
- Effect of dexamethasone and bethamethasone on the proliferation of human astrocytoma *in vitro*, by M. Guner, R. I. Freshney, D. Morgan, M. G. Freshney and D. G. T. Thomas.
- Effect of ascorbic acid on tumor growth, by J. A. Migliozi.
- Aprotinin (Trasylol[®]) treatment on growth of Walker 256 carcinosarcoma in the rat, by A. W. Thomson, R. G. P. Pugh-Humphreys, C. H. W. Horne and D. J. Tweedie.
- Radiosensitizing and cytotoxic effects on hypoxic cells of Ro-07-0582, and repair of X-ray injury, in an experimental mouse tumour, by S. A. Hill and J. F. Fowler.
- Prolonged survival and decrease in intestinal tumours in dimethylhydrazine treated rats fed a chemically defined diet, by W. M. Castleden.
- Report of a workshop on the standardization of selective cultures for normal and leukaemic cells, by M. A. S. Moore, A. W. Burgess, D. Metcalf, E. A. McCulloch, W. A. Robinson, K. A. Dicke, P. A. Chervenick, J. M. Bull, A. M. Wu, E. R. Stanley, J. Goldman and N. G. Testa.
- Growth kinetics of Kaposi's sarcoma, by J. F. Taylor, O. H. Iversen and R. Bjerknes.
- Early central nervous system involvement in adults with acute non-myelogenous leukaemia, by T. A. Lister, D. Crowther, J. M. A. Whitehouse, M. E. J. Beard, A. Paxton, R. L. Brearley, L. Brown and P. F. M. Wrigley.
- Burkitt's lymphoma in British adults: clinical features and response to chemotherapy, by R. L. Brearley, T. A. Lister, J. M. A. Whitehouse and A. G. Stansfeld.
- Serum immunoglobulin levels A, G, M, D and TNM classification in breast cancer, by M. Munzarova.

BULLETIN DU CANCER — VOL. 64, No. 1, 1977

(Articles in English or French — Abstracts in English)

Les disséminations intramammaires des carcinomes du sein—Intramammary disseminations of breast carcinomas, by G. Contesso, J. Rouesse, F. Fontaine and J. Y. Petit.

Epithéliomas baso-cellulaires du dos avec métastase ganglionnaire axillaire—Basal cell dorsal epitheliomas with axillary lymph-node metastasis, by G. Gricouroff, F. Veith, A. Zajdela, J. C. Durand and P. Schlienger.

Mise en évidence de la phosphatase acide ostéoclastique dans le sérum de malades atteints de tumeurs à cellules géantes—Demonstration of osteoclastic acid phosphatase in the serum of giant-cell tumour patients, by J. Motais de Narbonne, J. P. Thiery, H. Magdelenat and A. Mazabraud.

Proton magnetic relaxation in dehydrated normal and neoplastic animal tissue, by C. J. Lewa and A. Backowski.

Le cancer de l'œsophage dans l'ouest de la France. Analyse rétrospective d'une population de 1400 cas—Cancer of the oesophagus in western France. Retrospective analysis of a population of 1400 cases, by A. Roussel, M. Gignoux, J. C. Verwaerde, Ph. Segol, J. S. Abbaticchi and A. Valla.

Le cancer de l'œsophage en Ile-et-Vilaine en fonction des niveaux de consommation d'alcool et de tabac—Oesophageal cancer in Ile-et-Vilaine in relation to alcohol and tobacco consumption, by A. J. Tuyns, G. Pequignot and O. M. Jensen.

L'information cancérologique de l'omnipraticien—Cancer

information for the general practitioner, by B. Hoerni and C. Lagarde.

Evaluation des résultats de la radiothérapie dans 14 cas de thymomes malins—Evaluation of results of radiotherapy in 14 cases of malignant thymomas, by A. Pons, J. P. Armand, J. J. Udiget and P. F. Combes.

Le Groupe d'étude des rétrovirus: 4^e réunion annuelle. Rapport présenté par A. Tavitian—Study group on retroviruses: 4th annual meeting. Report presented by A. Tavitian.

Current status of population kinetics in gliomas, by David C. Crafts, T. Hoshimo and Charles B. Wilson.

Basis and results of chemotherapeutic treatment of gliomas, by David C. Crafts and Charles B. Wilson.

Traitement des glioblastomes inopérables par une combinaison d'adriamycine, de VM26 et de CCNU—Treatment of inoperable glioblastomas with a combination of adriamycin, VM26 and CCNU, by P. Pouillart, G. Mathé, P. Huguenin, P. Morin, M. Poisson, A. Buge, T. Palangie and R. Parrot.

L'hormonothérapie dans le traitement des tumeurs cérébrales primitives de l'adulte—Hormone therapy of primary cerebral tumours in adults, by J. N. Taptas.

Irradiation concentrée des astrocytomes malins et des glioblastomes—Intensive irradiation of malignant astrocytomas and glioblastomas, by J. P. Le Bourgeois, M. Schlienger, J. P. Constans and S. Askienazy.

ВОПРОСЫ ОНКОЛОГИИ, VOPROSY ONCOLOGII — VOL. 23, No. 2, 1977

(Articles in Russian — Abstracts in English)

The incidence of malignant neoplasms and the organization of medical aid for oncological patients in the USSR in 1974, by N. P. Napalkov, G. F. Tserkovny, V. M. Merabishvili and M. N. Preobrazhenskaya.

Comparative findings of radioisotope and roentgenological investigations in some osteogenic tumors, by R. I. Gabuniya, E. A. Ispenkov, I. S. Mannanov, A. P. Soborov and G. M. Vedzizhev.

Biogenic amines and the adrenal cortex function in breast cancer patients, by I. N. Agaev.

Determination of estradiol metabolic clearance rate and production rate in menopausal females with breast cancer, by A. Ya. Olinya, I. Ya. Shilova and S. G. Demina.

Densitometric analysis of mammograms in patients with benign tumors of mammary glands, by S. G. Khachkuruzov and S. V. Rzhankov.

Mastectomy after the Patey technic in the combination treatment of breast cancer, by V. S. Datsenko and A. B. Abisheva.

Peripheral blood lymphocytes in patients with melanoma, by I. M. Luchenko.

On the causes of late diagnosis of bronchial cancer, by R. M. Rabinovich, N. V. Zhdanova and A. V. Kantin.

The combination therapy for lung cancer, by M. I. Perel'man, I. A. Pereslegin, E. M. Fil'kova, G. D. Knyazeva, S. P. Grigor'eva and Z. P. Fishkova.

An estimation of surgical and combined treatment for lung cancer, by R. I. Vagner, V. A. Gremilov, A. S. Barchuk and V. S. Baikova.

The effect of complex treatment on the level of steroid and thyroid hormones in patients with pulmonary cancer, by E. D. Chirvina, A. M. Tjutjunova and S. Z. Kartashov.

The content of glycogen and the enzymic system of its biosynthesis in normal and tumor tissues in man, by V. S. Misheneva, T. A. Gorjuchina, T. M. Burova, V. P. Kalinovsky, E. A. Chekharina and I. P. Seits.

Growth and transformation of cells of undifferentiated nephroblastoma in cell culture, by S. A. Veroman.

The effect of N-nitroso-N-methyl urea on the cell kinetics in tumors, by L. A. Ostrovskaya and O. S. Frankfurt.

The effect of fluorafur and 5-fluoruracil on chromosomes of normal and tumour cells *in vivo*, by O. I. Sokova and G. M. Volgareva.

Antitumor resistance in deposition of tuberculous mycobacteria in the lung of rats, by A. I. Volegov.

The morbidity and incidence of lymphogranulomatosis in Moldavian SSR, by A. M. Paraskova, E. I. Sigal and I. F. Korchmaru.

A comparative clinico-dosimetric analysis of radiotherapy variants in patients with cervical cancer, by Sh. M. Beibutov, U. I. Kazhlaeva and Z. A. Samsonova.
